

MATT MONTGOMERY

DIRECTOR, TECHNOLOGY
McCormick Stevenson

A graduate of MIT with a degree Mechanical Engineering, Matt joined McCormick Stevenson in 2007, bringing a background in product development and manufacturing with experience in the defense, automotive, and medical industries. Matt has demonstrated an ability to manage the entire product lifecycle—from requirements definition, through engineering & design, and finally into full-scale production. Since joining McCormick Stevenson Matt has led engineering teams in the successful development of numerous Armament Systems and Defense Electronics products. As a former AFROTC cadet, Matt's passion for the DOD mission and for the defense of human liberty has been evident from the start.

As Director of Technology, Matt is responsible for guiding McCormick Stevenson's research & development pursuits including our Internal IR&D and Small Business Innovative Research (SBIR) programs. Matt also leads the McCormick Stevenson internship program, and enjoys giving back to the community through various activities, including:

- Leadership within the Florida West Coast Section of the American Society of Mechanical Engineers (ASME)
- An ongoing commitment to the Tampa Bay Engineering Internship Alliance (TBEIA)
- Volunteering as a local Cub Scout leader
- Volunteering at his church

Outside of work, Matt enjoys water sports, camping, and spending time outdoors with his children.
